Subj : Clarifications on media reports regarding plant stoppage

To : President  
The Stock Exchange of Thailand

Reference: Thai Rayon's normal production

This is with reference to some reports in the media regarding stoppage of Thai Rayon's plant operations by Department of Industrial Works (DIW). We would like to clarify that DIW has only ordered to close one of our three sulfuric acid plant which is one of our back process supporting activity only. The order is not applicable for closure of our main fibre production plant and our fibre production is continuing normally.

We are taking steps for better automation controls in our sulfuric acid plant and expect to complete the same within a couple of weeks.

Please be informed accordingly.

Yours Sincerely,

Pramod Khandelwal  
AVP (Finance & Commercial)
